**DETAILED ACTION**

In view of the Appeal Brief filed on 2/26/2008, PROSECUTION IS HEREBY REOPENED. New Grounds of Rejection are set forth below. To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:

/Gilberto Barron Jr/  
Supervisory Patent Examiner, Art Unit 2132

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-9 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The specification discloses the logic that could be exclusive software only see Par.0016 "Logic may also be fully embodied as software". Software per se is regarded as non-statutory.

### ***Allowable Subject Matter***

Claims 10-30 are allowed. The Applicant argues that causing the data store to be modified by changing the port count to specify a fewer number of physical ports is not disclosed by Thayer. The Examiner concedes that Thayer discloses the hidden port and the port be listed in configuration file in a format undetectable by the operating system. But fails to explicitly disclose the lower of number of ports in a list. And further the feature of security option is absent in Thayer. The security feature disclose by Thayer includes switching between the normal mode and debug mode, but this does not closely articulate the security characteristics.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Venkat Perungavoor whose telephone number is (571)272-7213. The examiner can normally be reached on 8:30-5:00. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gilberto Barron can be reached on 571-272-3799. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
